

Hosted Exchange +SharePoint:

Communication and Collaboration

This is the next generation of affordable, reliable messaging and portal solutions with Microsoft Exchange 2007 and Microsoft SharePoint 2007. Our hosting solutions are provided from data centers across the US, the UK and Australia and are protected by ExchangeDefender SMTP Security. Together with LiveArchive and a 10GB per mailbox limit, we deliver a powerful and scalable solution that even most enterprise clients cannot provide with in-house servers.

Here are a few feature highlights of our Exchange offering:

Exchange 2007 Enterprise

Microsoft Exchange 2007 is at the core of our offering, providing a powerful messaging solution including Outlook 2007, Outlook Web Access 2007, Windows Mobile integration and powerful scheduling and messaging functionality.

SharePoint 2007

Microsoft SharePoint Team Services provides the online portal and groupware functionality, integrated with our Exchange 2007 Enterprise offering to provide seamless calendar and document management, task lists and powerful group collaboration.

TrueMail

ExchangeDefender SMTP security offers protection from SPAM, viruses, malware and many forms of dangerous content. No mail is ever deleted and junk is easily accessible if you care to review it.

ExchangeDefender LiveArchive

In addition to the heavily redundant Exchange deployment, ExchangeDefender LiveArchive features a massive failover system that functions as a replica of your mail server configuration. Mail delivered to Exchange is also delivered to LiveArchive, giving you peace of mind that you will never be unable to check mail.

Tiered Storage

10GB is allocated to each mailbox. This storage allocation give you plenty of room for attachments, voicemail and document storage.

Administration Portal

Make changes to your configuration on demand through the administrative portal. You don't need to know how to manage Exchange to utilize its full power. We have made management of users and addresses a snap! All changes are applied instantly!
